

2.1 MAGNETISMUS

Úkol 1

Na stole v místnosti je položena na list papíru sponka na spisy. Navrhněte, jak je možné způsobit, že se sponka pohne. Pokuste se vymyslet co nejvíce způsobů. Vyzkoušejte je.

Situace	Návrhy
 A line drawing of a room. On the left wall is a window with a frame. In the center of the room is a square table with four legs. On top of the table, a small square piece of paper is placed, and on the paper, a paperclip is lying. In the background, there is a door with a handle. The room is enclosed by simple lines representing walls and floor.
